DETAILED ACTION

1. This action is responsive to amendment filed 11/18/2005.
2. The disposition of the claims is as follows: claims 1-11 are pending in the application. Claims 1, 2, 4, 6, 9 and 10 are independent claims. Claim 11 has been newly added.

Claim Rejections - 35 USC § 101

3. In view of the amended claims and Applicant's remarks, 101 objections are withdrawn.

Claim Rejections - 35 USC § 102

4. In view of amended, Applicant's remarks and review of cited references, 102 rejections are withdrawn.

Allowable Subject Matter

5. Claims 1-11 are allowed.
6. The following is an examiner's statement of reasons for allowance:

Applicant's amended independent claim 1 stands novel over the related prior art. For instance, while the related art of Noguchi (U.S. Patent Number 6,711,285 B2), does make use an area of the region on the original image corresponding to the pixel whose data is sampled as the image data sampling value is minute, the image data sampling value includes data of high luminance points or low luminance points in the minute area in the original image or other points in the original image likely be a neutral color. In the

above description, since the color correction is performed by the use of the averages [r], [g] and [b] of the image data sampling values, the color correction can be performed with high accuracy all the time. Image data of an original image representing a similar scene can also be corrected to have substantially the same color balance.

However, Noguchi does not disclose image elements likely to be self-luminous as claimed in independent claims 1, 2, 4, 6, 9 and 10. Therefore as claimed by the combined elements of amended independent claim 1, 2, 4, 6, 9 and 10, the cited references and prior art of record lack separately and in combination the elements of amended claims. Claims 3, 5, and (7, 8, 11) depend from allowed independent claims 2, 4 and 6, respectively, and therefore are also allowed.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Responses

8. Responses to this action should be mailed to: Commissioner of Patents and Trademarks, Washington, D.C. 20231. If applicant desires to fax a response, (703) 872-9306 may be used for formal communications.
